PROFILE SUMMARY

I am an aspiring front-end developer with a strong foundation in HTML, CSS, JavaScript, and React. Passionate about creating visually appealing and responsive web interfaces. Eager to apply my skills and learn collaboratively in a dynamic development environment. Keen attention to detail and a commitment to staying current with industry best practices for delivering exceptional user experiences.

INTERNSHIP EXPERIENCE

SPACE SCAN   NOV 2023 - DEC 2023

HTML , CSS , JAVASCRIPT , REACT

- Completed Space Scan internship, gaining hands-on experience in web development with a focus on HTML, CSS, and JavaScript.
- Contributed to the successful implementation of dynamic and responsive web applications using modern frameworks like React.
- Demonstrated problem-solving skills through rigorous testing, debugging, and proactive resolution of web development challenges.
- Collaborated effectively within a multidisciplinary team, ensuring alignment with project goals and maintaining coding standards.

PROJECTS

To do list application - Build using javascript
Designed and developed a dynamic To-Do List app in JavaScript, showcasing adept state management and user interactions for seamless task handling.

Weather app - Build using javascript
Developed a dynamic Weather App using JavaScript, seamlessly integrating with a weather API to provide real-time weather information for user-specified locations.

Ecommerce Website - Build using javascript
Built responsive e-commerce websites using HTML, CSS, and JavaScript. Enhanced user experience with dynamic features, secure payment integration, and efficient cart functionalities.

ADDITIONAL SKILLS

- Responsive Design
- Web Performance Optimization
- Accessibility
- Version Control/Git
